COVID UPDATE: What is the truth?
Russell L. Blaylock
The COVID-19 pandemic is one of the most manipulated infectious disease events in history, characterized by official lies in an unending stream lead by government bureaucracies, medical associations, medical boards, the media, and international agencies.[3,6,57] We have witnessed a long list of unprecedented intrusions into medical practice, including attacks on medical experts, destruction of medical careers among doctors refusing to participate in killing their patients and a massive regimentation of health care, led by non-qualified individuals with enormous wealth, power and influence.

Clinical Concerns
-mRNA or adenoviral DNA induce production of the Spike protein
-Cell, tissue, organ endothelial damage
-Spike protein in body fluids, donated blood
-No genotoxicity, teratogenicity, or oncogenicity studies
-Concerning ovarian biodistribution study (Pfizer, Japan)
-Concerning reduced fertility study (Moderna, EMA)
-No EAC, DSMB, Human Ethics Committee
-No restriction of properly excluded groups from RCTs
-Pregnant women, women of childbearing potential
-COVID survivors, previously immune
-No risk stratification for hospitalization and death
-No data transparency
-No mitigation of risks for public

From: Fauci, Anthony (NIH/NIAID) [E]
Sent: Wed, 5 Feb 2020 05:48:11 +0000
To: Sylvia Burwell
Subject: RE: A couple of quick questions.
@TexasLindsay
Sylvia:
Masks are really for infected people to prevent them from spreading infection to people who are not infected rather than protecting uninfected people from acquiring infection. The typical mask you buy in the drug store is not really effective in keeping out virus, which is small enough to pass through the material. It might, however, provide some slight benefit in keep out gross droplets if someone coughs or sneezes on you. I do not recommend that you wear a mask, particularly since you are going to a very low risk location. Your instincts are correct, money is best spent on medical countermeasures such as diagnostics and vaccines.
Safe travels.
Best regards,
Tony
